

Pro/ENGINEER UsersConference 2002

- Last modified: Aug 19 2003 -

This is the 8th time we organised the Pro/ENGINEER Users Conference together with PTC Nederland.

A big fire in another building at the University (only a few hundred meters away the day before the conference) nearly torpedoed the conference. But in the end it didn't cause any troubles at all. Except that we only did not have live Internet connections, since the fire destroyed the main computer facilities of the University shutting the network down..

We had special attention for the newest PreRelease of **Pro/ENGINEER Wildfire**. Off course it also featured the [PTC/AWARD Benelux](#), where PTC and IBM delivered nice prices.

This years winner of the Pro/AWARD Benelux 2002 was:

GRASSO Products B.V. i.c.w. DYMO Engineering
 by: G.Bon, J. vd Oetelaar, H.Gruijtrootij
 en J.Schellekens
 Project: **Ontwikkeling Grasso8S Koelcompressor**

For the first time this year we had *forumdiscussions*. They were an experiment but were very well received. Not many participants, but due to their specialistic nature the discussions were in depth. Most participants said there wasn't enough time for a thorough discussion. It took some time for the discussions too really take off.

The location was by many experienced as being too far away (3 to 4 hour drives were no exeption). The number of visitors was also lower than expected. Voices in the organization were heard about organizing the 2003 conference somewhere in Brabant again. Any good tips for locations are welcome

Take a look at the pictures here

Details:

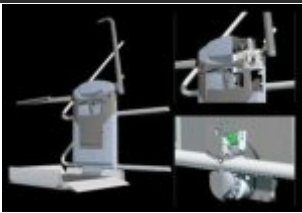

- Place: **Universiteit Twente, Enschede. CC-Complex**

[official routedescription](#) to the UT
[map of the UT](#) (zie 9A: Collegezalen Complex)

- Date: **thursday november 21, 2002**
- Start: **09:30 uur** (open 09:00 uur)
- End: **whole day** (09:00 - 17:30)
- Costs: **EUR 50** (pay at the counter)
- Program:
 - o **Pro/AWARD presentations**
 - o **Pro/E Wildfire**
 - o **Forumdiscussions**
 - o **Workshops**
 - o **VIP Presentation**

And continuous exhibitions

08:45	Reception	
09:30	Welcome by our chairman Han Wientjes	
09:40	Pro/WELCOME Short welcome by PTC-NL (Michael Hillewaert)	
	Pro/AWARD presentations	
09:50	Pro/AWARD 1: MMiD by: K. Veltman Project: Radius	
10:15	Pro/AWARD 2: GRASSO Products B.V. i.s.m. DYMO Engineering	

	by: G.Bon, J. vd Oetelaar, H.Gruijtrooij en J.Schellekens Project: Ontwikkeling Grasso8S Koelcompressor WINNER	
10:40	Pro/AWARD 3: VanBerloStudios by: Q. Devrie en, M. Oosterwelder Project: Triker	
11:05	Coffee + Exhibitors	
11:35	Pro/E Wildfire by David Blair (PLM Core technology) (English spoken). Live demo by Piet van Dongen (PTC-NL) With.: <ul style="list-style-type: none"> • The revolutionary new user-interface • Sharing Pro/ENGINEER sessions • RESTYLE • WARP • Downwards compatibiliteit. • Etc. More about Wildfire on the site of PTC ...	
12:45	Morning closure by Han Wientjes	
12:50	Lunch and exhibitions	

Workshops + Forumdiscussions (<i>gedetaileerde omschrijvingen</i>)				
	CC1 (460 Personen)	CC2 (290 Personen)	CC3 (150 Personen)	CC4 (200 Personen)
13:40-14:10 Workshop Session 1	PDMLink by: PTC SHEETS	Top-Down design and Concurrent Engineering by: CE Masters	Forum 1 (Advanced) Surfaces	Simulering with Pro/MECHANICA. Current status by: HEC
14:20-14:50 Workshop Session 2	Routed System Designer & Cabling by: PTC	B&W Progressive Die by: Rand	Forum 2: Designautomation	Advanced CAE in practice by: BPO
14:50	Break and exhibitors			
15:25-15:55 Workshop Session 3:	Working together using Pro/ENGINEER en Pro/INTRALINK by: Spekan Innativ Consulting Services	ISDX: from scan to productionmodel with interactive surfacing by: Spekan Innativ	Forum 3: Large Assmely Management	Stheno/PRO - The new 2D technical drawing module for Pro/ENGINEER by: Tree-C
16:05	VIP Speaker: Quicksilver world water speed record by Nigel McKnight 			

16:50	Closure Announcement of the Pro/AWARD Benelux 2002 winner (price by PTC and Spaceball byIBM): GRASSO Products B.V. i.c.w.. DYMO Engineering Project: Ontwikkeling Grasso8S Koelcompressor 
17:00-17:30	Drinks

Exhibitors:

3D Technology

BMA ergonomics

CAD Schroer

CE Masters

Dymo-Engineering

Mecal

Mold Flow

moldflow corporation

PTC

Rand

Rolta

Spekan
Spekan CS

Tegema

Gebruikersdag Enquete 2002
